PROFESSIONAL SUMMARY

Flutter Developer with 2.5+ years of experience building scalable cross-platform mobile applications for **Android and iOS** using Flutter. Demonstrated expertise in designing, developing, and deploying high-performing mobile applications on **Google Play Store and Apple App Store** with **10+ live apps** and **50K+ downloads**. Proficient in Flutter, Dart, Firebase, REST APIs, payment gateway integration, and real-time features, with strong focus on scalable architecture, performance optimization, and intuitive user experiences. Additionally skilled in **Backend development using Node.js and Express.js**, with hands-on experience in **building RESTful APIs**, implementing **CRUD operations**, and **designing backend services** aligned with application functionality, enabling seamless end-to-end development.

PROFESSIONAL EXPERIENCE

Flutter Developer | Techflux Solutions, Nashik

October 2024 – Present

Servyo – On-Demand Household Services App (App Store & Play Store)

Designed and launched a full-stack mobile app connecting users with vetted household service professionals including drivers, chefs, cleaners, and gardeners.

- Built end-to-end booking system with on-demand and scheduled service options, integrated secure payment gateway with transparent pricing
- Implemented professional vetting workflow including background checks and training verification for all service providers
- Designed intuitive UI for browsing services, reading reviews, and managing bookings; deployed to both App Store and Google Play Store

Servyo Partner – Service Provider App (Play Store)

Designed and launched a companion app enabling service professionals to register, manage bookings, and grow their business on the Servyo platform.

- Built onboarding flow for professionals across multiple service categories and integrated booking management system for flexible job scheduling
- Developed earnings tracking dashboard with complete job history and secure payment management
- Implemented ratings and reviews system to help professionals build reputation and credibility; deployed to Google Play Store

Veroa Crew – Photography Booking Platform (App Store)

Designed and developed an end-to-end photography service platform enabling users to discover, book, and manage professional photoshoots seamlessly across multiple categories.

- Built a scalable booking system with real-time availability, instant confirmations, and flexible scheduling for various photography services
- Integrated push notifications for real-time updates and implemented admin chat functionality using socket-based communication
- Implemented end-to-end shoot management including scheduling, reminders, and on-day coordination; deployed on App Store

TinyMinds AI – Kids Educational App (Play Store)

Designed and built an AI-powered educational app for young learners, generating dynamic quizzes on core topics using Google Gemini AI in a safe, ad-free environment.

- Integrated Google Gemini AI to generate unique, age-appropriate quizzes across Math, ABC, and Words topics with offline-friendly performance
- Built kid-friendly UI with clean, simple navigation and ensured full compliance with Google Play Families Policy — no ads, no tracking, no personal data collection
- Handled end-to-end development from AI integration to UI design and deployed to Google Play Store

Marathi Marriage Biodata Maker – Biodata Creator App (Play Store • 50K+ Downloads)

Redesigned and rebuilt a marriage biodata maker app from the ground up, scaling it to 50K+ downloads with expanded language

- Implemented customizable biodata templates for creating and exporting marriage profiles with a seamless user experience
- Optimized Play Store listing for discoverability resulting in significant download growth; handled end-to-end redesign, feature addition, and deployment

Flutter Developer | Probiy IT Solutions, Nashik

January 2024 – October 2024

Reshimgathi Maratha Matrimony App (Play Store • 10K+ Downloads)

Developed and deployed a community-focused matrimony app for the Maratha community, enabling users to discover and connect with verified profiles seamlessly.

- Built advanced profile search with filters, profile saving, and contact request system for connecting with potential matches
- Integrated payment gateway for premium features, push notifications for match alerts, and manual profile verification for authenticity
- Ensured privacy, security, and reliable performance; deployed to Google Play Store

TECHNICAL SKILLS

Languages & Frameworks	Dart, C, C++, Flutter, Node.js, Express.js
State Management	Provider, GetX, Bloc, Riverpod
Backend & APIs	REST APIs, Firebase (Auth, Firestore, Push Notification), API Development
Storage & Tools	Hive, SharedPreferences, Git, GitHub, Google Play Console
Core Competencies	Data Structures & Algorithms, Operating Systems, Database Management

EDUCATION

Bachelor of Computer Science (BCS)

Savitribai Phule Pune University • Graduated: 2024 • CGPA: 7.5

Higher Secondary Certificate (HSC)

Bhonsala Military College • Year: 2021 • Percentage: 75%
