PROFESSIONAL EXPERIENCE

Flutter Developer | Techflux Solutions, Nashik

October 2024 – Present

- Designed, developed, and deployed 10+ production-grade Flutter applications for Android and iOS, spanning on-demand services, marketplaces, booking platforms, and AI-powered catalog tools.
- Integrated secure payment gateways (Razorpay, Stripe), real-time chat via Socket.IO, push notifications, and calling SDKs across multiple client and product applications.
- Implemented scalable state management (Provider, GetX, Bloc) and REST API integrations to power real-time booking, job scheduling, and provider/user verification workflows.
- Owned end-to-end release management on Google Play Console and Apple App Store, ensuring smooth publishing, updates, and store compliance.
- Collaborated with backend and design teams to translate business requirements into responsive, high-performance Flutter UIs, improving user engagement and discoverability.

Flutter Developer | Probity IT Solutions, Nashik

January 2024 – October 2024

- Developed a community-focused matrimony application from the ground up using Flutter, Dart, and Firebase, scaling it to 10+ downloads on the Play Store.
- Built advanced profile search with multi-filter support, profile saving, and contact request workflows to improve matchmaking efficiency.
- Integrated a secure payment gateway, push notifications, and a manual profile verification system to strengthen platform trust and safety.
- Built REST API-based data flows with Provider for state management, ensuring consistent performance across devices.
- Partnered with the product team on UI/UX refinements and bug fixes, contributing to improved play store ratings post-launch.
